

# Morris County Youth Wellness Summit

## Tuesday, March 7, 2023 – Drew University

### WHAT is a Youth Wellness Summit?

The Youth Wellness Summit is a day-long event (7:30am-1:30pm) hosted by the Society for the Prevention of Teen Suicide (SPTS) and offered to Morris County public and private high schools at no cost. The summit was designed to provide students, staff, and administrators with the resources needed to support overall wellness, including the prevention of teen suicide and other upstream prevention measures. By engaging participants with a variety of activities, students will be able to develop positive coping strategies, increase their knowledge as it relates to overall wellness, and learn practical techniques that can be easily implemented in their individual learning environments.

The goal of the summit is to instill methods and practices for overall wellness and mental health, and to enrich students' lives by improving their ability to effectively problem solve, set goals, and increase their leadership skills. The summit will seek to motivate participants to return to their schools as positive role models and become partners in creating safe and fun places to learn. All participants will receive a "Wellness Tool Kit" to share with their school and will leave enthusiastic about making a difference in their community.

Prior to Covid, SPTS has offered Youth Wellness Summits in Monmouth, Ocean, Middlesex and Morris Counties in New Jersey, and Nassau County in New York. Each Summit begins with a powerful and interactive panel discussion presenting young people with inspiring stories of resiliency and hope. Throughout the day, effective prevention and wellness techniques will be presented on a variety of topics including coping skills, yoga, preparing for college and adult life, removing toxic friendships, building self-confidence, and effective communication skills.

### WHO is invited to attend?

All Morris County public and private high schools will be invited to select up to eight (8) students, four sophomores and four juniors, to attend the event. Additionally, schools will select two "Trusted Adults" or staff to attend. **Admission is FREE.** Each school will be responsible for its own transportation. If your school is in need of grant funding to help cover the cost of transportation, please visit [fieldtripnj.org](http://fieldtripnj.org).

Students selected for this event should represent a cross section of the student body, as opposed to students who typically volunteer or are selected because they excel scholastically or are heavily involved in extracurricular activities. It is helpful to have students who are leaders within their social clique, so that they may carry the positive messaging back to their peer groups. The "Trusted Adults" selected to represent your school may include your SAC, Guidance Staff, SRO, Coach, Teacher, Nurse, Food Service Staff... anyone in your school community who is most likely be approached by a student in need and is most likely to carry the messaging back to colleagues.

### WHEN and WHERE is this event?

Tuesday, March 7, 2023  
Drew University  
36 Madison Avenue, Madison, NJ 07940
